REF : Installation of Siemens Telephone system upgrade

Dear Nick

Just a short note to place on record how pleased we are with the new phone system installed at Bowling Green House and our office in the Eastern Docks. The initial meeting to discuss terms was completely transparent and a very different approach to many other communications company's I have previously had the misfortune of dealing with.

The installation was done fast and efficiently by your engineers at both the premises and the new system is a pleasure to work with.

Once again thanks for all of this and please pass my personal details to anyone who would like a recommendation

Best Regards

TIM WAINWRIGHT
Managing Director
